## Success Stories

“When I was a young lad I thought that I was invincible, and that my body would never ‘give up on me’, so in my profession as a carpenter I would kneel on hard floors all day fitting kitchens and laying floors without giving a thought to supporting my knees with cushioning.. I went to the doctor who listened to my symptoms and diagnosed that I had developed arthritic inflammation caused by years of kneeling without using kneeling pads. He suggested that I take anti inflammatory pain killers to deal with the pain and reduce inflammation, and to refrain from taking part in activities which involved pressure on my knees – such as skiing... ..so I gave it a try and for about 3 months before my most recent skiing holiday, I used Ultralieve Pro daily on my knees. The improvement was amazing... I skied every day of my holiday which was a great feeling after expecting to never be able to ski again!”

# 3 easy steps to recovery

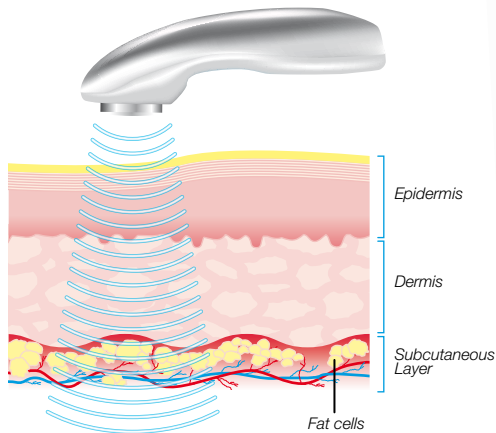

Quick, easy & pain-free

A typical **Ultralieve<sup>®</sup> PRO** treatment will take from 5-15 minutes depending on the injury. Pain-free with no side effects, **Ultralieve<sup>®</sup> PRO** is your personal physiotherapy treatment at home, at work or while travelling. It can:

- ✓ **Speed the rate of healing** & enhance the quality of repair
- ✓ **Provide deep heat** to the injury which helps reduce pain, decrease joint stiffness and increase localised blood flow
- ✓ **Reduce swelling and inflammation**
- ✓ **Reduce trigger point pain**, the causes of headache, backache and all other types of muscular soft tissue 'overuse' syndrome

## What is Therapeutic Ultrasound?

Therapeutic ultrasound has been used by physiotherapists and doctors for over 60 years in the management of pain and musculoskeletal injuries. It is a very high frequency vibration that penetrates deep below the surface of your skin to promote healing and relieve pain. The ultrasound waves act like a micro massage at a subcutaneous level (deep within the cells – up to 5cm down).

**1 million vibrations per sec (1MHz) to treat:**

- ✓ Remove cell waste
- ✓ Muscle spasms
- ✓ Pain
- ✓ Inflammation

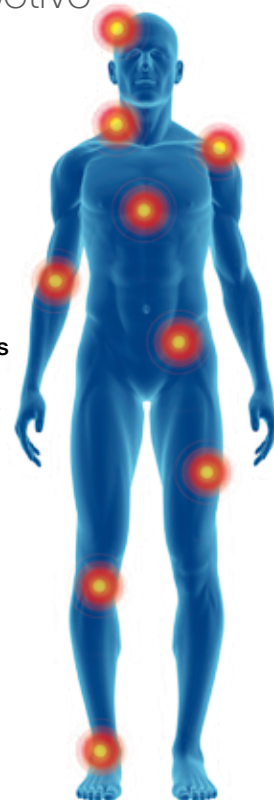

- Step 1**  
Switch device on
- Step 2**  
Select time mode
- Step 3**  
Select intensity

**Ultralieve<sup>®</sup> PRO**  
Fast pain relief

Provides effective relief from:

- ✓ Headaches
- ✓ Backaches
- ✓ Shoulder strains
- ✓ Disc strain
- ✓ Herniation
- ✓ Bursitis
- ✓ Sports injury
- ✓ Sciatica
- ✓ Arthritic pain
- ✓ Muscle aches/pains
- ✓ Knee problems
- ✓ Sprains and strains
- ✓ Tendonitis
- ✓ Foot pain
- ✓ Plantar Fasciitis and many more...

Speed up healing and enhance muscle repair

David is a professional model & actor. It's essential he's in excellent shape as his lively hood depends upon it. David talks about Ultralieve below and why it's so important to him as part of his exercise regime.

I used to waste so much time and money going back to the Physio with my injuries from the gym and playing sports but Ultralieve has meant

I have more time to do the things I want. Now I always carry it with me in my sports bag wherever I'm travelling to, it is so convenient and it works a treat.

**David White**  
Professional model

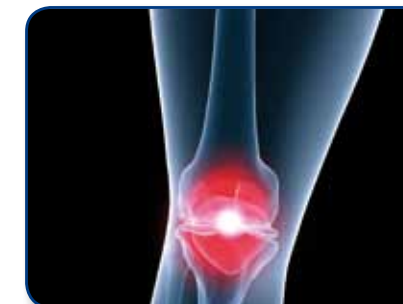

“Considering I've had this problem for years, and severely for the last four months, the relief was amazing. I must have spent well over £1000 on various treatments, including injections, and this easy-to-use device is a must for athletes to keep them off the treatment table.”
